JARED TANKSLEY

PROJECT COORDINATOR | PMO ANALYST |
PMP CANDIDATE

Project management professional with 10+ years of experience leading complex infrastructure initiatives, overseeing project budgets, coordinating stakeholders, and driving successful project delivery. Experienced in project lifecycle management, process improvement, reporting, automation, and cross-functional team coordination.

EXPERIENCE

- SR. SPECIALIST NETWORK ENGINEER** Nov 2021 - Present
AT&T, Inc., Oklahoma City, Oklahoma
 - Ranked as the highest-producing engineer for two consecutive years across Oklahoma, Kansas, Missouri, and Arkansas.
 - Direct the planning, budgeting, execution, stakeholder coordination, and delivery of more than 200 annual infrastructure projects while maintaining ownership from initiation through closeout.
 - Maintain end-to-end ownership of project budgets, capital expenditures, asset capitalization, and financial compliance while ensuring successful project delivery and operational accountability.
 - Developed and implemented a railroad planning and permitting process that generated more than \$1 million in localized project cost savings through improved routing strategies, design methodologies, and execution practices.
 - Developed reporting, workflow automation, AI-assisted document processing, and data visualization solutions utilizing Microsoft Copilot, Power BI, Power Automate, Palantir, Excel, and Microsoft 365 tools to improve operational efficiency, project visibility, and decision-making.
 - Lead coordination efforts among municipalities, contractors, engineering teams, construction organizations, government agencies, and executive stakeholders while mentoring four newly hired engineers into successful independent project ownership roles.
- PREMIER SERVICE CONSULTANT** Jun 2021 - Nov 2021
AT&T Mobility, Inc., Remote
 - Consistently achieved monthly sales and performance objectives within a quota-driven environment while managing customer relationships and delivering solution-based recommendations.
 - Successfully operated within a remote work environment, independently managing daily priorities, performance goals, and customer engagement activities.
 - Resolved complex billing, technical, order fulfillment, and service-related issues by collaborating with customers, peers, and internal stakeholders.
- WIRE TECHNICIAN** Nov 2015 - Jun 2021
AT&T Entertainment, Inc., Oklahoma City, Oklahoma
 - Delivered installation, maintenance, troubleshooting, and service restoration activities for video, copper, satellite, and fiber networks while consistently exceeding productivity and customer satisfaction objectives.
 - Ranked as the top-performing technician across the Oklahoma City metropolitan area in 2018, achieving the highest performance levels across all major operational measurement categories.
 - Maintained top-tier productivity, quality, and customer satisfaction metrics for more than five consecutive years.
